

# NIGHTINGALES

## **The Nightingales Nurses RN2Q1 Campaign**

**Our Goal: Every year every nurse will help at least one person to quit.**

**Our Maxim: "Smokers don't have to be ready, we'll help you to get ready, and learn how to quit."**

### **Take Action and Help Nurses Protest Big Tobacco!**

- **Please, everyone who quits tobacco join the online QuitNet club called NightingalesNurses**

- **Every person who joins NightingalesNurses at QuitNet will help us to keep track of cigarettes not smoked, and money saved. Nurses will report the lost profits back to Big Tobacco at their annual shareholder meetings.**

**Thank you and congratulations!**

#### **About The Nightingales Nurses**

We are a group of nurse activists who work to focus public attention on the behavior of the tobacco industry and its contribution to the preventable epidemic of tobacco-caused disease and death. The tobacco industry spends more than \$1 million an HOUR to suggest that cigarette smoking is cool, glamorous, and fun. In contrast, we bear witness each day to the suffering and devastation wreaked by tobacco on our patients and their loved ones. It is not socially responsible for the tobacco industry to continue active marketing and promotion of these deadly products.
